## The Art of Getting What You Need From Generative AI

Prompt engineering is the process of crafting and refining a specific, detailed prompt — one that will get you the response you need from a generative AI model. Assistant Professor Yeqing Kong shares tips.

## Reading Lists Users Save Students More Than \$65,000

Reading Lists allows instructors to add Georgia Tech Library resources, web resources, and their own documents to a single place in Canvas. Students then find all of their course materials in one place.
